We're wired differently. It's time you were, too.

**Whatever you love in home entertainment—
experience it like you should.**

Dear <First Name>,

Only Fios® offers the speed and reliability of a 100% fiber-optic network. So what does it mean to be wired differently?

It means having access to the fastest internet and Wi-Fi available.* And with equally fast upload and download speeds, and 99.9% network reliability, no network is better equipped to support multiple devices and users simultaneously. So you get the full power of the internet. It's no secret that cable can't offer upload and download speeds this fast at a price this good. Only Fios can.

Wired differently also means getting an entertainment package for everybody, and every budget. Only Custom TV lets you pay for the types of channels you want—not the ones you don't.

And switching to Fios couldn't be easier. A highly trained local Verizon technician will get you up and running, including setting up your Wi-Fi and connecting your compatible devices.

Check out the enclosed brochure and see everything Fios has to offer. Then go online to order today.

Sincerely,

Anne E. Hogan
Executive Director, Fios Marketing
