DEPARTMENT OF THE ENVIRONMENT

DIDYWXINOW

That the Agency formerly known as the Department of Environmental Resources (DER) is now known as the DEPARTMENT OF THE ENVIRONMENT (DoE)

That DoE has a new logo, which you see depicted HERE:

That DoE has moved to new office space located at 1801 McCormick Drive, Suite 500 in Largo

And our Recycling Office has moved to new office space located at 9200 Basil Court, Suite 300 in Largo With DoE's new focus, expect to see more innovative initiatives such as:

- A new organics composting program;
- A zero waste, resource recovery approach to our waste stream;
- Cost saving public-private partnerships (P3) for clean water to create green infrastructure and green jobs;
- Increased partnerships to boost animal adoptions, pet foster families and low-cost vet services; and
- Major investments in renewable energy generation like solar farms and electric charging stations.

DoE is on the move and we invite YOU to partner with us as we engage and empower our County residents, businesses and nonprofits on being good environmental stewards.

That DoE has refocused its efforts on its core environmental mission to make Prince George's cleaner, greener, healthier and more beautiful

Welcome to YOUR New Department of the Environment
