WHEREAS, Prince George's County, Maryland has been and continues to be severely impacted by the COVID-19 outbreak; and

WHEREAS, as of August 31, 2021, the number of confirmed COVID-19 positive cases in the County was 91,789 cases, with approximately 9,209 hospitalizations and approximately 1,582 deaths; and

WHEREAS, as of August 31, 2021, the average daily case rate is 18.8 per 100,000 residents. The County has remained over 10.0 for four straight weeks; and

WHEREAS, based upon analysis of reported data as of August 23, 2021, the County's infection rate is 1.05. An infection rate over 1.0 indicates that cases continued to grow; and

WHEREAS, as of September 1, 2021, the County's positivity rate is 5.8%; and

WHEREAS, the County's available hospital capacity as of August 31, 2021 is 50.6%, with 12% of hospitals beds in use for patients with COVID-19. There are now 120 patients with COVID in County hospitals, the highest number in four months; and

WHEREAS, the available hospital capacity does not take into account the shortage of health workers being reported by hospitals in the County, which places further strain on hospital

resources; and

WHEREAS, the County's health care system continues to need resources to effectively combat this emergency; and

WHEREAS, as of August 31, 2021 and per the U.S. Centers for Disease Control (CDC), 77.6% of adults (ages 18+) in the County have at least one vaccine, and 68.6% are fully vaccinated; 76.9% of residents ages 12+ have at least one vaccine, and 67.2% are fully vaccinated. In summary, 65.2% of the overall population has at least one vaccination, and 57.0% are fully vaccinated; and

WHEREAS, as of the date of this Resolution, the U.S. Centers for Disease Control (CDC) has indicated that all jurisdictions within the State of Maryland are areas of "substantial" or "high" community transmission, and that the County, along with 21 other jurisdictions, is an area of "high" transmission; and

WHEREAS, variants of COVID-19 have developed and the risk of new variants increases as the disease is spread from person to person; and

WHEREAS, available data shows that the predominant variant in the County is the highly transmissible Delta variant (also known as B.1.617.2), which continues to spread and affect a wider portion of the population and to create an increased risk of cases, hospitalizations, and death; and

WHEREAS, given that many of the relevant metrics are now in the medium or high level of disease transmission, and that there is continued concern over community spread of new COVID-19 variants, it is necessary that the County remain vigilant and cautious with its reopening planning; and

WHEREAS, COVID-19 continues to pose an imminent threat to the health, safety and welfare of County residents; and

WHEREAS, Section 14-111 (b) (1) of the Public Safety Article of the Annotated Code of Maryland states that the consent of the governing body is needed if a local declaration is continued or renewed for more than 30 days; and

WHEREAS, CR-77-2021 remained in effect through September 10, 2021 at 5:00 p.m., unless amended or terminated sooner; and

WHEREAS, Executive Order 18-2021, which amended portions of CR-77-2021, will terminate September 10, 2021 at 5:00 p.m.
