COUNTY EXECUTIVE ALSOBROOKS ANNOUNCES WEEKLY COVID-19 AT-HOME TEST KIT DISTRIBUTION

LARGO, MD – County Executive Angela Alsobrooks announced today that the Prince George's County Health Department and the Office of Emergency Management will begin handing out 25,000 at-home rapid COVID-19 test kits at designated locations each week, in partnership with the Prince George's County Memorial Library System (PGCMLS) and the Maryland-National Capital Park and Planning Commission (M-NCPPC).

"With the rise in COVID-19 cases across our region and State, we have seen a drastic increase in testing demand," said Alsobrooks. "We recognized that we needed to ensure that our residents had access to testing resources, and we are excited to be able to partner with our library system and M-NCPPC to bring these additional resources to our community. We strongly encourage residents to take advantage of these new options to get tested, regardless of your vaccination status, so that we can keep each other safe and healthy."

The COVID-19 test kits are free, regardless of insurance or immigration status. Residents will be required to show proof of County residency to receive a test kit. Examples of proof of residency include, but are not limited to, a driver's license, utility bill, or lease agreement. One test kit, which contains 2 tests, will be distributed per person ages 2 years or older.

The distribution schedule for this week is:
