Please complete the following questions.

1. Is your home a NEW HOME by the following definition? Yes No

The definition of a NEW HOME is a house that was built in the last 5 years, and the site development grading permit has not yet been closed.

If your home is a new home, please report your concern by using this DPIE Drainage Complaint Form and sending it to the DPIE email in-box at DPIEDrainage@co.pg.md.us.

If your home is not a new home, please contact 311.

2. Are you experiencing flooding on your property or have you noticed flooding on your neighbor's property? Yes No
3. If the answer to Number 2 is "Yes," how often does the flooding occur? Once a year Twice a year Every time it rains

Other: _____

4. Do you think the flooding is caused: From Nearby Stream By Groundwater Seepage
 By Excessive Surface Water Runoff Unknown

5. Have you observed water entering your home? Yes No

If so, did the water enter: At the Foundation Through a Door or Window From a Backed up Stairwell Drain

Other (*describe*): _____

6. To what depth does flooding occur in your home? _____
- What depth does flooding occur in your yard? _____

7. Do you have a sump pump at your home? Yes No

If so, how often does it come on? _____

How long does it run? _____

8. Briefly describe any attempts you have made to correct your water problems: _____

9. How do you think the water problems could be solved? _____

10. Please draw a diagram of your lot showing street name, house number and problem area(s).

11. Do you have any additional information or observations concerning the flooding in your area? _____

12. Would you be willing to grant an easement for a corrective project if one were recommended? Yes No

(An easement allows the construction of the proposed project and future maintenance of the drainage system. Without an easement, the County cannot issue a permit for the drainage improvement project.)
