

# Business Licenses

Department of Permitting, Inspections and Enforcement  
**Business Development Section**

**Melinda Bolling**  
Director

## Business Licenses

DPIE issues licenses for an assortment of businesses and trades per County regulations. For more information on County business licensing and fees, visit [DPIE Licensing](#). Note: The County Business License Center should not be confused with the [State Business License Division](#), which issues licenses for certain specified Maryland businesses located within the County.

## How to Apply

All Prince George's County business licenses are processed in Momentum, the County's new online system. The new system allows customers to submit applications, upload documentation and make payments online. When the applications have been reviewed and approved, customers will be able to print their licenses at work or at home.

For more information about Momentum, registration, step-by-step instructions, and "how to" videos, click [Momentum Information](#). To go straight to the application, click [Momentum Portal](#).
