Johnson &
Johnson?

Moderna?

Pfizer?

WHICH
VACCINE?
IS FOR ME?

Proud
to be PROTECTED
Prince George's County

All FDA-approved COVID-19 vaccines are safe and effective. When it is your turn to be vaccinated, know that the Moderna, Pfizer, and Johnson & Johnson vaccines all provide the life-saving protection you need against COVID-19.

- Remember:**
- Moderna and Pfizer vaccines both require a second dose, so be sure to keep your second dose appointment.
 - The Johnson & Johnson vaccine only requires one dose.
 - You must pre-register to receive an appointment with the Prince George's County Health Department.
