The only exception is for those trucks that failed the initial inspection during one of the on-time inspection dates and the reinspection was performed within 20 business days of the failed inspection date. It is highly advisable to take your trucks for Health Department inspection during one of the early inspection dates and avoid waiting to the last date(s) to take your trucks in for inspection.

NOTE: Collection trucks not bearing the new permit sticker will not be allowed access to the Prince George's County facilities and maybe subject to County motor vehicle violations if operating on County roadways without the proper permit renewal. Again, it is highly recommendable to get your trucks in early for inspection and not wait until the last available inspection dates.
