

# Autism Spectrum Disorder (ASD) in Children

Join Dr. Matthew Mason, a Kaiser Permanente Child Psychologist, for an insightful presentation on Autism Spectrum Disorder (ASD) in children. This session will provide a comprehensive overview of ASD, focusing on early signs, diagnosis, and strategies for supporting children with autism. Parents and caregivers will gain practical tools and resources to foster understanding and create inclusive environments.

- Overview of Autism Spectrum Disorder (ASD) and its characteristics.
- Effective strategies for communication, behavior management, and support.
- Building inclusive and supportive environments in homes, schools, and communities.
